17:30 – 18:00	Panel of discussion

Day II

Atrophic Maxilla. 'Soft and Hard Tissue Management'

FRIDAY, September 27 th	
9:00 – 10:30	Minimal invasive approaches in cases of large bone resorption Dr. Alberto Picó
10:30 – 11:00	Coffee Break
11:00 – 13:00	Where is the limit in digital dentistry? Advanced applications in Implantology, tooth auto-transplantation and bone regeneration Dr. Ernest Lucas-Taulé
13:00 – 14:30	Lunch break
14:30 – 16:30	Decision-making in the atrophic maxilla. Bone and soft tissue regeneration. Where are we now? Dr. Daniel Robles
16:30 – 17:30	Panel of discussion
17:30	Closing ceremony

Dr. Robles Cantero, Daniel

Dr. Daniel Robles Cantero graduated in dentistry by the Complutense University of Madrid, and is an expert in periodontics and implantology by the UAL. Since then, he manages a private practice in implantology and regenerative surgery. He is the Clinic Director and Co-director of the Master in Periodontics and Implantology of Universidad Europea Miguel de Cervantes (UEMC), Coordinator of the Master in Surgery, Implantology and Rehabilitation of CEPUME-UA, honorary professor at the Master in Surgery and Implantology at URJC, and Professor of Master in Periodontics and Periimplantology at the UAX, and associate in many other national and international universities.

Dr. Robles Cantero wrote two ebooks on implantology and regeneration and is a member of the most well-known scientific societies in Spain (SEPA, SEPES, SCOI). He presides the first national congress of SCOI and collaborates as a member of the edition committee of the Journal of Diagnosis and Treatment of Oral and Maxillofacial Pathology.

He is a national and international lecturer in topics such as regeneration, immediate implantology and digital implantology

Dr. Picó Ramírez, Alberto

Dr. Alberto Picó Ramírez graduated in dentistry by the University of Valencia. He holds a Master in Periodontics from ESORIB and studied the BOPT technique with Dr. I. Loi at the Complutense University of Madrid.

Dr. Picó Ramírez holds an International Diploma in integral dentistry by the International Academy of Integral Dentistry, awarded in Paraguay in May 2008. In 2017 he certified as trainer by the International Society of Computerized Dentistry and was Professor of the Monographic Course of Sinus Lift. He is an active member of the Spanish Society of Implantology, the Spanish Society of Periodontics and Osseointegration (SEPA), and the Scientific Committee of the Labor Dental Clinic magazine.

Dr. Picó Ramírez is the author of several articles published in different scientific journals nationwide, and he is an international lecturer.

Dr. Lucas-Taulé, Ernest

Dr. Ernest Lucas Taulé owns a degree in dentistry by the University of Catalunya, and an international master in oral surgery by the same University, and where he is currently an associate professor of the department of oral and maxillofacial surgery.

Dr. Lucas-Taulé is an active member of the Spanish Society of Oral Surgery (SECIB), and the Spanish Society of Periodontics and Osseointegration (SEPA), and he is co-author of many papers in dentistry.

Dr. Lucas Taulé practices oral surgery and implantology in Spain and the United Kingdom.
