PROSTHODONTICS

MASSIRONI KIT FOR PROSTHODONTIC PROCEDURES

HU-FRIEDY

The Massironi Kit for prosthetic includes two new Enamel Rounded Chisel instruments, made with XTS technology, and designed by Dr. Massironi himself in collaboration with Hu-Friedy. These chisels are most often used in the finishing stages of the procedure and the off-angle design allows clinicians to access the restoration from any angle.

Learn more about our
Key Opinion Leader
Domenico Massironi.

The kit Contains:

for Prosthodontic Procedures

Sugg. Retail 285.216 Ft

Promo 185.390 Ft

SURGICAL

SUPER-CUT

Cutting blade honed/serrated to „razor“ sharpness with opposing blade finished with fine serrations to avoid tissue slippage.

PERMA SHARP™

Featuring tungsten carbide inserts bonded to surgical-grade stainless steel on both cutting edges for smooth, controlled cutting and maximum durability.

BLACK LINE

- Optimal edge retention and enhanced lubricity.
- Enriched contrast and visual acuity at the surgical site and underlying tissue.
- Reduced light reflection.
- Maximum comfort, reduced hand fatigue and increased control.
- Optimal strength and corrosion resistance.

DID YOU KNOW? All hinged instruments – forceps, rongeurs, scissors, pliers, hemostats, orthodontic pliers, etc. – should be kept lubricated. Regular use of proper lubricants, like Hu-Friedy Instrument Lubricant Spray (ILS), will prevent rust, corrosion and stiff joints to ensure smooth operation. **All hinged instruments should be sterilised in the open position.**

SURGICAL

FORCEPS HU-FRIEDY

Our **DIAMOND DUSTED FORCEPS** feature a fine diamond coating which increases resistance between the forceps and tooth surface providing enhanced engagement. The secure grasp of the crown and root reduces the risk of crushing or fracturing the tooth.
